

EVERYTHING YOU NEED TO MANAGE YOUR BUILDING IN ONE PLACE

Managing several properties, staff and residents can be a challenge. With limited time, resources and bandwidth, property managers are often faced with operational inefficiencies which leads to poor management performance and dissatisfied tenants.

Uswalter makes it simple to manage your properties and residents with ease all while saving you time. Improve operations by relying on Uswalter's all-in-one solution, which simplifies day-to-day tasks through a management dashboard, file storage and automated workflows. With its accounting software integration capability, Uswalter enables property managers to rely on one single database.

DISCOVER THE FEATURES THAT ENABLE SCALABILITY, TIME SAVINGS AND EFFICIENCY

Uswalter centralizes management tools in one application, available on desktop or mobile so that you can access features while in the office or on the go.

IMPROVING YOUR WORKFLOW IS OUR PRIORITY

How you manage your day-to-day is a reflection of your overall management efficacy. Uswalter makes it easy to simplify everyday tasks so that you can focus on delivering an enhanced experience to your residents and your team.

- Streamline communication through a live chat feature and email integration.
- Easily access documents with dynamic content sharing and file storage.
- Create, assign and manage building staff with the task management feature.
- Save the hassle of publishing memo boards with the news announcement feature.
- Cut on costs by servicing residents within the Uswalter platform.
- Save time and eliminate redundancies by integrating building related data, IoT, task management systems and back-end softwares into the Uswalter platform.

“ As an Assistant Property Manager, I cannot recommend Uswalter enough. The Uswalter team is *dedicated, flexible* and *responsive*. Technology like this makes my job *easier*. ”
